

To whom shall we give in 2025 - 2026?

In this holiday season, when many of us decide where to make donations for the year, what does it mean to follow the words from Micah: “... *to act justly, to love mercy, and to walk humbly with God,*” especially with the terrible war and horrendous humanitarian crisis in Gaza, millions of climate change refugees, and millions more facing epidemics without vaccines for the sake of Big Pharma’s billions of profits.

Surely, we are called on not only to provide balm for the wounds of people suffering from injury and injustice but also to seek to change the conditions that create the injustices.

Writer and activist Alice Walker has written, “Activism is my rent for living on the planet...” a simple, clear statement of a profound commitment! Most of us benefit richly from the resources of the planet. Let us be inspired by Walker’s stance to reciprocate by using our various capacities, talents, and resources to sustain the planet and advocate for an end to injustices and build equity for all its people.

In this time of giving, the Edgewood United Church Justice and Peace Team suggests these organizations for your consideration to make donations to that will support their work locally, nationally, and globally. As we updated the list this year, we have added an organization doing community organizing and relief in western North Carolina and updated organizations focused on Palestine – both those doing advocacy work in the United States and those providing humanitarian assistance on the ground in Gaza and the West Bank.
